

Ostinato™ Laminated Bark Skins

Simulating the look of precious natural stones like Onyx and Marble, our Solid Bark Skin material can be used as backsplashes, specialty tiles, flooring components, fixed panels hung on Z clips, horizontal and vertical furniture components and even back lit within a framed elevation.

Azure Blue - Blue Bahia

White Onyx

When using a more open weave of Bark Skin, you can easily add some bling behind the Bark Skin, as shown below in the Cinnamon Lace over Silver Dust.

Marbeled Onyx

Please note; these are hand made pieces from natural tree bark. Aniline dyes are added for color. There will be variation in color from sheet to sheet. In addition, sheets of raw bark skin are measured exactly 4 x 8 in most cases. That does not mean we will yield a full 4 x 8 when laminated.
